## Professional Summary

Experienced Software Developer with a strong background in design, installation, testing, and maintenance of software systems. Proficient in various platforms, languages, and embedded systems. Adept at self-managing during independent projects and collaborating as part of a productive team. Backend development professional with strong foundation in server-side logic, database management, and API integration. Known for effective team collaboration, adaptability, and delivering reliable code. Skilled in programming languages such as Python, Java, and SQL. Valued for problem-solving abilities, clear communication, and commitment to high-quality outcomes.

## Work History

**Software Engineer**, 03/2021 to 05/2024

**TechMahindra** – Hyderabad

### **OpenText Media Management (OTMM)**

- **Digital Asset Management** : Utilized OpenText Media Management (OTMM) to streamline and enhance digital asset management processes, ensuring efficient organization, retrieval, and distribution of media assets.
- **Menu Actions Creation** : Designed and implemented new menu actions, customizing the user interface to meet specific project requirements and improve user experience.
- **Action Scripting** : Developed and scripted custom actions within OTMM, automating repetitive tasks and enhancing workflow efficiency.
- **Java Services Development** : Worked on both UI and backend Java services, including the development and integration of RESTful APIs, to facilitate seamless communication between OTMM and other systems.
- **API Development** : Created and maintained APIs to ensure smooth data exchange and integration with third-party applications, enhancing the overall functionality of the digital asset management system.
- **Collaborative Development** : Collaborated with cross-functional teams, including designers, developers, and project managers, to deliver high-quality solutions on time and within budget.
- **Problem Solving** : Identified and resolved technical issues related to OTMM, ensuring system stability and optimal performance.

## Education

**Master of Science:** Information Technology and Management, Expected in 12/2025

**Webster University** - St Louis, MO

**Bachelor of Technology:** Computer Science, 05/2020

**KL University** - Vijayawada

## Additional Information

- Proficiency in OpenText Media Management (OTMM)
- Java Services and API Development
- Custom Action Scripting and Automation
- Digital Asset Management
- Collaborative Teamwork and Communication
- Problem-Solving and Troubleshooting

## Extra-Curricular Activities

Represented in All India Cricket Championship

## Skills

- Java Development
- Python Programming
- Responsive CSS Design
- MySQL Database Management
- Maven Project Management
- JavaScript Development Skills
- Web Development Using HTML
- Responsive Web Design with Bootstrap
- Database Management
- Spring Framework Implementation Skills

## Personal Information

Title: Software Developer

## Certifications

- Python Programming Certificate – Python Institute.
- Java Certification
- Maven Certification
- MySql Certification
- HTML & CSS Certification
- MongoDB
